

Refreshing the Air

Management's Discussion and Analysis

Group Outline

The S.T. CORPORATION Group is composed of S.T. CORPORATION, six consolidated subsidiaries, three equity method affiliated companies and other affiliated companies.

Sales Overview

In the fiscal year ended March 31, 2016 (hereinafter called "the current year"), the Japanese economy recovered gently, because corporate earnings and the employment situation improved due to the yen depreciation and the decline in oil price. However, the economic outlook remains uncertain, amid the downturn of consumer spending due to the slowdown of the Chinese economy, the anxiety over international situations, unstable weathers, etc. as well as the yen appreciation and the fall in share prices from the beginning of 2016.

In these circumstances, the S.T. Group set the goal of "brand value management" with the basic policy of narrowing down and concentrating on targets, developing unprecedented products, and conduct swift business administration; and has been shifting to profit-oriented management based on the creation of clients, the establishment of a highly profitable system, and the introduction of the business division system. In addition, the S.T. Group has continued the company-wide activities for managerial reform STR (S.T. Reformation).

As a result, the sales of the new brand "SHALDAN" in the Air Care category contributed to the sales for the current year, and the performance of the premium series of the existing mega-brand "Shoshu-Riki" and other category was healthy. Consequently, sales increased 0.2% year on year to ¥48,351 million. Regarding individual

segments, sales in the Air Care category increased 3.9%, sales in the Cloth Care category decreased 2.4%, sales in the Thermal Care category decreased 18.8%, sales in the Hand Care category increased 5.2%, sales in the Humidity Care category increased 11.1%, and sales in the Home Care category increased 2.8%.

Cost of Sales, SG&A Expenses, and Operating Income

Cost of sales declined 3.3% year on year to ¥27,294 million, as S.T. made efforts to reduce manufacturing cost although procurement cost, etc. augmented through the yen depreciation. Selling, general and administrative expenses increased 2.7% year on year to ¥18,715 million, as marketing cost increased, but other expenses were curbed. As a result, operating income rose 29.2% year on year to ¥2,342 million.

Other Income (Expenses), Pretax and Profit Attributable to Owners of Parent

As for other income and expenses, profit before income taxes grew 10.9% year on year to ¥1,703 million, and profit attributable to owners of parent increased 2.2% year on year to ¥912 million.

Accordingly, earnings per share increased from ¥40.83 in the previous year to ¥42.01. The ratio of profit attributable to owners of parent to sales grew from 1.8% in the previous year to 1.9%, while ROE dropped from 4.2% to 4.1%, both indicating little change.

Financial Position

Total assets as of March 31, 2016 stood at ¥34,924 million, up ¥1,139 million from the end of the previous year. Current assets declined ¥514

million to ¥19,708 million, mainly because of the decrease in notes and accounts receivable. On the other hand, non-current assets grew ¥1,653 million to ¥15,216 million, mainly because of the increase in investment securities.

Total liabilities were ¥11,428 million, up ¥244 million from the end of the previous year, mainly because of the augmentation of notes and accounts payable and deferred tax liabilities, etc. On the other hand, net assets were ¥23,496 million, up ¥896 million from the end of the previous year, mainly because of the growth of retained earnings and valuation difference on available-for-sale securities.

Consequently, net assets per share increased from ¥1,001.84 at the end of the previous year to ¥1,049.58. In addition, equity ratio grew from 64.8% at the end of the previous year to 65.2%, indicating the sound financial standing.

Capital Expenditures and Depreciation and Amortization

Capital expenditures increased from ¥1,486 million in the previous year to ¥1,758 million. Depreciation and amortization rose from ¥844 million in the previous year to ¥1,128 million.

Cash Flows

Net cash provided by operating activities for the current year was ¥2,481 million, up ¥344 million from the previous year. This increase is mainly due to the rise in depreciation and amortization, etc. On the other hand, net cash used in investment activities was ¥624 million (In the same period of the previous fiscal year, net cash used in investment activities was ¥1,768 million). This is mainly due to the augmentation of

expenditures through the acquisition of property, plant and equipment. Net cash used in financing activities was ¥876 million, as expense augmented ¥262 million year on year. This is mainly due to the acquisition of treasury shares.

As a result, the balance of cash and cash equivalents at the end of the current year was ¥7,552 million, up ¥967 million from the end of the previous year.

Dividends and Return to Shareholders

Taking into consideration such factors as profit attributable to owners of parent and the need to realize shareholder returns, we decided to distribute a term-end dividend of ¥11.0 (¥22.0 for the full year, including the interim dividend), on a par with the previous fiscal year, making for a consolidated payout ratio of 52.4%. The company will continue to place importance on returns to shareholders.

Business and Operational Risks

Factors that could possibly impact the Group's operating results, financial position or stock prices include the following: (1) an escalation in raw materials prices; (2) the impact on manufacturing operations from natural disasters and changes in international political or other conditions; (3) sales fluctuations due to unseasonal weather; (4) and the failure of initiatives to raise new businesses. Forward-looking statements in this annual report are based on certain assumptions made by the Group as of the end of this fiscal year.

Notes to Consolidated Financial Statements

S.T.CORPORATION and Consolidated Subsidiaries
March 31, 2016

1 Summary of Significant Accounting Policies

(a) Basis of presentation

S.T. CORPORATION (the "Company") and its domestic subsidiaries maintain their books of account in conformity with accounting principles generally accepted in Japan, and its overseas subsidiaries maintain their books of account in conformity with those of their countries of domicile. Effective April 1, 2008, the Company adopted the "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements" (PITF No. 18, issued by the Accounting Standards Board of Japan (ASBJ) on May 17, 2006).

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of IFRS, and are compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Act of Japan.

In preparing the accompanying consolidated financial statements, certain reclassifications have been made to the consolidated financial statements issued domestically for readers outside Japan. The notes to the consolidated financial statements include information which is not required under accounting principles generally accepted in Japan but is presented herein as additional information. Furthermore, certain amounts in the prior year's financial statements have been reclassified to conform to the current year's presentation.

As permitted by Financial Instruments and Exchange Law, amounts are rounded to the nearest million yen. Consequently, the totals shown in the accompanying consolidated financial statements (both in yen and U.S. dollars) do not necessarily agree with the sum of the individual amounts.

(b) Scope of consolidation

(1) Number of consolidated subsidiaries:
6 companies

(2) Names of consolidated subsidiaries:
S.T. TRADING CO., LTD., S.T. BUSINESS SUPPORT CO., LTD., S.T. (THAILAND) CO., LTD., FAMILY GLOVE CO., LTD. (TAIWAN), S.T. KOREA CORPORATION (SOUTH KOREA), and SHALDAN (THAILAND) CO., LTD.

(3) Names of major non-consolidated subsidiaries:
JAPAN AROMA LABORATORY CO., LTD. and S.T. GLOVE CO., LTD.

The number of non-consolidated subsidiaries decreased by one from the previous fiscal year because the former subsidiary, JAPAN CORPORATION CO., LTD., was combined into the Company through an absorption-type merger effective August 1, 2015.

(Reasons for exclusion from scope of consolidation)

Non-consolidated subsidiaries have been excluded from the scope of consolidation because the total amounts of their total assets, net sales, profit or loss (amount equivalent to equity interests), retained earnings (amount equivalent to equity interests) and other figures are limited, and the effect on the consolidated financial statements as a whole is not significant.

(c) Scope of application of equity-method accounting

(1) Number of affiliated companies accounted for by the equity method:
3 companies

(2) Names of major companies:
SHALDAN (PHILIPPINES), INC., AEKYUNG S.T. CO., LTD., and NS FAFA JAPAN CO., LTD.

(3) Name of non-consolidated subsidiaries for which equity method is not applied

The non-consolidated subsidiaries to which the equity method does not apply (JAPAN AROMA LABORATORY CO., LTD. and S.T. GLOVE CO., LTD.) are accounted for using the cost method rather than the

equity method because the total amounts of their profit or loss (amount equivalent to equity interests), retained earnings (amount equivalent to equity interests) and other figures are limited, and the effect on the consolidated financial statements as a whole is not significant.

(d) Accounting period

The accounting period of the Company begins on April 1 and ends on March 31 of the following year. The four overseas subsidiaries have fiscal years ending on December 31. The necessary adjustments for significant transactions, if any, during the intervening period are made on consolidation.

(e) Translation of foreign currency transactions and financial statements

Monetary assets and liabilities denominated in foreign currencies are translated into yen at the rates of exchange in effect at the balance sheet date and the accounts of the overseas consolidated subsidiaries are translated into yen at the rates of exchange in effect at the balance sheet date. Foreign exchange gains and losses are credited or charged to income and translation adjustments are included in net assets.

(f) Marketable securities and investment securities

Other securities with determinable market value are carried at market value with any changes in unrealized holding gain or loss, net of the related deferred income tax assets or liabilities, included in net assets. Other securities without determinable market value are stated at cost determined by the moving-average method and the cost of other securities sold is computed based on the moving-average method. During the years ended March 31, 2016 and 2015, the Company and its consolidated subsidiaries did not have any trading securities.

(g) Inventories

Inventories are stated at the lower of cost or net selling value, cost being determined by the average method.

(h) Property, plant and equipment, except for leased assets, and depreciation

Property, plant and equipment are stated at cost. Depreciation of property, plant and equipment of the Company and its domestic subsidiaries, except for buildings (excluding structures attached to the buildings) acquired on or after April 1, 1998, is computed by the declining-balance method in conformity with the Corporation Tax Law of Japan. Depreciation of property and equipment of overseas subsidiaries and buildings (excluding structures attached to the buildings) acquired on or after April 1, 1998 of the Company and domestic subsidiaries is computed by the straight-line method.

The estimated useful lives of the major depreciable assets are as follows:

Buildings and structures	3 to 50 years
Machinery, equipment and vehicles	2 to 17 years
Tools, furniture and fixtures	2 to 20 years

(i) Intangible assets

Intangible assets, except for leased assets, are amortized by the straight-line method. Cost of software purchased for internal use is amortized by the straight-line method over a period of mainly 5 years, the useful life applicable to commercially available software.

(j) Leases

Non-cancelable lease transactions that transfer substantially all the risks and rewards associated with the ownership of the leased assets are accounted for as finance leases. All other lease transactions are accounted for as operating leases and related payments are charged to income as incurred.

Depreciation is computed by the straight-line method over the respective lease terms assuming a nil residual value.

Notes to Consolidated Financial Statements

(k) Allowance for doubtful receivables

The allowance for doubtful receivables is provided based on past experience for normal receivables and on an estimate of the collectability of receivables from companies in financial difficulty.

(l) Allowance for sales returns

The allowance for sales returns is provided for losses on sales returns subsequent to the balance sheet date at an amount equivalent to that calculated based on the actual percentage of returns in prior years.

(m) Employees' retirement and severance benefits

- (1) Method of attributing expected benefit payments to the period
In calculating the retirement benefit obligation, the method of attributing expected benefit payments to periods is based on the benefit formula.
- (2) Amortization method of actuarial gains/losses
Actuarial gain or loss is amortized in the year following the year in which the gain or loss is recognized by the straight-line method over a period of a certain number of years (5 years) which is shorter than the average remaining years of service of the employees.
- (3) Adoption of a simplified method in some consolidated subsidiaries
Some consolidated subsidiaries adopt the simplified method which assumes retirement benefit obligation to be equal to the benefits

payable if all eligible employees voluntarily terminated their employment at the end of fiscal year for the calculation of net defined benefit liability and retirement benefit expenses.

(n) Provision for directors' retirement and severance benefits

The Company has accrued provision for directors' retirement and severance benefits at the amount which would be required to be paid if all directors resigned from their positions and left the Company as of the balance sheet date in accordance with its internal regulations.

(o) Provision for executive officers' incentive plan

The Company has established an executive officers' incentive plan trust and a provision is made at the amount required for stock awards based on the Company's internal regulations for awarding stock.

(p) Consumption taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

(q) Cash and cash equivalents

Cash and cash equivalents in the accompanying consolidated statements of cash flows consist of cash on hand, demand deposits and liquid short-term investments with a maturity of three months or less from their respective dates of acquisition.

2 Basis of Translation

The consolidated financial statements presented herein are expressed in yen and, solely for the convenience of the reader, have been translated into U.S. dollars at ¥112.69 = U.S.\$1.00, the approximate exchange rate prevailing on the Tokyo Foreign Exchange Market on March 31, 2016. This

translation should not be construed as a representation that all amounts shown could have been, or could in the future be, converted into U.S. dollars at that or any other rate.

3 Change in Accounting Policies

The Company has adopted "Revised Accounting Standard for Business Combinations" (ASBJ Statement No. 21, September 13, 2013) (hereinafter, the "Business Combinations Accounting Standard"), "Revised Accounting Standard for Consolidated Financial Statements" (ASBJ Statements No. 22, September 13, 2013) (hereinafter, the "Consolidation Accounting Standard"), "Revised Accounting Standard for Business Divestitures" (ASBJ Statement No. 7, September 13, 2013) (hereinafter, the "Business Divestitures Accounting Standard") and other standards effective from the fiscal year ended March 31, 2016. Accordingly, the accounting methods have been changed with the difference arising from changes in equity in subsidiaries in which the Company retains control recorded as capital surplus, and acquisition-related costs recorded as expenses for the fiscal year in which they are incurred. In addition, regarding business combinations occurring on or after April 1, 2015, the accounting method has been changed to retroactively reflect adjustments to the amount allocated to acquisition costs arising from the finalization of the provisional

accounting treatment on the consolidated financial statements of the period in which the business combination occurs. Furthermore, the presentation of net income and others has been changed and the presentation of minority interests has been changed to non-controlling interests. In order to reflect the changes in presentation, the consolidated financial statements for the fiscal year ended March 31, 2015 have been reclassified.

The Business Combinations Accounting Standard and other standards have been adopted in accordance with the transitional treatment set forth in Article 58-2 (4) of the Business Combinations Accounting Standard, Article 44-5 (4) of the Consolidation Accounting Standard and Article 57-4 (4) of the Business Divestitures Accounting Standard. The Company adopted these accounting standards effective April 1, 2015.

There was no impact on the consolidated financial statements as a result of the application of these accounting standards.

4 Additional Information

(Transactions of Delivering the Company's Own Stock to Employees etc. through Trusts)

(a) Board Benefit Trust (BBT)

The Company reviewed the system for executive officers' compensation, and introduced a "Board Benefit Trust" with the goal of increasing awareness of the importance of contributing to further enhancing the Company's corporate value and performance over the medium-to-long-term from the fiscal year ended March 31, 2016.

The Company has adopted "Practical Solution on Transactions of Delivering the Company's Own Stock to Employees etc. through Trusts" (PITF No. 30, issued by the ASBJ on March 26, 2015).

(1) Summary

The Company awards the Company's stock to the executive officers who satisfy certain requirements based on predetermined regulations for awarding stocks. Executive officers are granted a certain number of points depending on the financial results, and upon their retirement, the officers will receive stock depending on the number of points they have accumulated.

The Company has established the Trust by contributing funds to be used for the acquisition of the Company's stock on behalf of executive officers. The Trust will acquire the Company's stock to be awarded to the executive officers in the future, and the shares are managed as trust assets.

(2) The Company's stock in the Trust

The Company's own stock in the Trust is recorded in treasury shares under net assets based on the book value of the shares in the Trust (excluding ancillary expenses). The book value and the number of these treasury shares in the Trust as of March 31, 2016 were ¥105 million (U.S.\$929 thousand) and 100,000 shares, respectively.

(b) Employee Stock Ownership Plan (ESOP) Trust

The Company introduced an Employee Stock Ownership Plan (ESOP) Trust as an employee incentive plan with the aim of raising awareness of share price and improving financial results.

The Company has adopted "Practical Solution on Transactions of Delivering the Company's Own Stock to Employees etc. through Trusts" (PITF No. 30, issued by the ASBJ on March 26, 2015).

(1) Summary

The Company awards the Company's stock to the employees who satisfy certain requirements based on predetermined regulations for awarding stocks.

If the Company's profit is higher than a pre-determined standard, the Company awards a certain number points to employees. Upon their retirement, employees will receive the Company's stock depending on the number of points they have accumulated.

The Company has established the Trust by contributing funds to be used for the acquisition of the Company's stock on behalf of participating employees. The Trust will acquire the Company's stock to be awarded to employees in the future, and the shares are managed as trust assets.

(2) The Company's stock in the Trust

The Company's own stock in the Trust is recorded in treasury shares under net assets based on the book value of the shares in the Trust (excluding ancillary expenses). The book value and the number of these treasury shares in the Trust as of March 31, 2016 were ¥126 million (U.S.\$1,115 thousand) and 120,000 shares, respectively.

5 Consolidated Statements of Comprehensive Income

The amount of recycling and amount of income tax effect associated with other comprehensive income for the years ended March 31, 2016 and 2015 were as follows:

6 Financial Instruments

(1) Current status of financial instruments

- (a) Policy in relation to financial instruments
The Company and its consolidated subsidiaries (collectively, the "Group") raise necessary funds following capital investment plans for undertaking the manufacturing-and-selling businesses. Surplus funds of the Group are only invested in highly secure financial assets.
- (b) Details of financial instruments and related risk
Trade receivables—trade notes and accounts receivable—are exposed to credit risk in relation to customers. In addition, receivables denominated in foreign currencies are exposed to foreign currency exchange risk.
Investment securities, most of which are stocks of other companies with which the Group has business relationships, are exposed to market price fluctuation risk.
Substantially all trade payables—notes and accounts payable—trade, electronically recorded obligations—operating and other payables—have payment due dates within one year. In addition, payables denominated in foreign currencies are exposed to foreign currency exchange risk.
- (c) Risk management system for financial instruments
(Credit risk management—the risk that customers or counterparties may default)
The Company has established a management policy whereby the Company evaluates the financial conditions of its customers and monitors

due dates and outstanding balances regularly to identify and mitigate risks of bad debts from customers who are having financial difficulties.

The consolidated subsidiaries perform equivalent management procedures as the Company.

(Market risk management—the risk arising from fluctuations in exchange rates and interest rates)

The Company uses forward exchange contract transactions with the aim of avoiding risk related to fluctuation in future foreign exchange.

For investment securities, the Company periodically confirms the market value of such financial instruments and reports to the director in charge. The Company reviews the status of these investments on a continuing basis.

(Liquidity risk management—the risk that the Group may not be able to meet its payment obligations on the schedule dates)

The Company manages liquidity risk by means of preparing monthly financial plans.

- (d) Supplementary explanation of items relating to the fair value of financial instruments
The fair value of financial instruments is based on their quoted market prices if available. If there are no market prices available, fair value is reasonably estimated. Because estimation of fair values incorporates variable factors, adopting different assumptions can change the value.

(2) Estimated fair value of financial instruments

The carrying value of financial instruments recognized on the consolidated balance sheets as of March 31, 2016 and 2015, the estimated fair value of such items and the differences between them are shown below. Financial instruments for which fair value is extremely difficult to estimate are not included in the following table.

Year ended March 31, 2016	millions of yen		
	Carrying value	Fair value	Difference
a Cash and time deposits	¥ 7,566	¥ 7,566	—

Notes: 1. Method of estimating the fair value of financial instruments and other matters relating to investment securities

Assets

a. Cash and time deposits and b. Trade notes and accounts receivable

Because these items are settled over the short term, the fair value and carrying value are nearly equivalent. Therefore, the relevant carrying value is used.

c. Investment securities

Stocks are valued at the exchange trading price. Bonds are valued at the exchange trading price or at the price provided by the financial institutions offering these securities. For information on securities classified by purpose of holding, please refer to the "Marketable Securities and Investment Securities" section of the notes to the financial statements.

Liabilities

a. Trade payables, b. Electronically recorded obligations-operating and c. Other payables

Because these items are settled over the short term, the fair value and carrying value are nearly equivalent. Therefore, the relevant carrying value is used.

2. Financial instruments for which fair value is extremely difficult to determine

	Carrying value		thousands of U.S. dollars
	millions of yen		
	2016	2015	2016
Unlisted equity securities	¥ 55	¥ 55	\$ 489

Because the fair value of these financial instruments is extremely difficult to determine, given that no quoted market price is available, they are not included in the above table.

Notes to Consolidated Financial Statements

3. Redemption schedule for receivables and other securities with maturity dates at March 31, 2016 and 2015 are summarized as follows:

Year ended March 31, 2016	millions of yen			
	One year or less	More than 1 year and within 5 years	More than 5 years and within 10 years	More than 10 years
Time deposits	¥ 7,565	¥ —	—	—

7 Derivatives

The Company and its consolidated subsidiaries had no derivative instruments outstanding at March 31, 2016 and 2015.

8 Marketable Securities and Investment Securities

(1) Other securities

The acquisition cost and related carrying value of other securities with a determinable market value at March 31, 2016 and 2015 are summarized as follows:

	millions of yen		thousands of U.S. dollars
	2016	2015	2016
Acquisition cost	¥ 2,662	¥ 2,753	\$ 23,621
Carrying value	4,794	3,811	42,545
Total unrealized gain	2,170	1,077	19,253
Total unrealized loss	37	19	329

At March 31, 2016 and 2015, unlisted stocks (whose carrying value was ¥55 million (U.S.\$489 thousand) and ¥55 million, respectively) are not included in the above table because their fair value is extremely difficult to determine, given that no quoted market price is available.

(2) Sales of other securities

(Year ended March 31, 2016)

Not applicable

(Year ended March 31, 2015)

Total	¥ 3	—	¥ 0

(3) Impairment of investment securities

The Company recognized impairment loss on investment securities of ¥10 million for the year ended March 31, 2015.

9 Land Revaluation

In accordance with the Land Revaluation Law (Proclamation No. 34 dated March 31, 1998), land used for business activities was revalued at March 31, 2002. The revaluation difference, net of taxes, is stated as "unrealized revaluation loss on land, net of taxes" in net assets. Deferred tax liabilities arising from this revaluation difference are presented separately from

deferred tax liabilities for other temporary differences in the accompanying consolidated balance sheets. The market value of the land as of March 31, 2016 and 2015 decreased by ¥562 million (U.S.\$4,987 thousand) and ¥584 million, respectively, after the revaluation.

10 Pledged Assets

Pledged assets for the years ended March 31, 2016 and 2015 are summarized as follows:

	millions of yen		thousands of U.S. dollars
	2016	2015	2016
Time deposits	¥ 4	¥ 5	\$ 39

Time deposits were pledged as collateral mainly for leased office space at March 31, 2016 and 2015.

Notes to Consolidated Financial Statements

11 Income Taxes

At March 31, 2016 and 2015, the tax effect of the temporary differences which gave rise to a significant portion of the deferred tax assets (excluding deferred taxes on unrealized revaluation loss on land) was as follows:

	millions of yen		thousands of U.S. dollars
	2016	2015	2016
Deferred tax assets:			
Accrued employees' bonuses	¥ 126	¥ 136	\$ 1,119

Other	148	141	1,315
Gross deferred tax assets	895	868	7,946
Valuation allowance	(112)	(109)	(996)
Total deferred tax assets	783	759	6,949
Deferred tax liabilities:			
Deferred gain on sales of property	(13)	(13)	(111)
Undistributed earnings of controlled foreign companies	(97)	(88)	(859)
Unrealized holding gain on other securities, net of taxes	(652)	(316)	(5,783)
Total deferred tax liabilities	(761)	(418)	(6,753)
Net deferred tax assets	¥ 22	¥ 341	\$ 196

At March 31, 2016 and 2015, net deferred tax assets were included in the following items in the consolidated balance sheets.

	millions of yen		thousands of U.S. dollars
	2016	2015	2016
Current assets - deferred tax assets	¥ 384	¥ 371	\$ 3,406
Non-current assets - deferred tax assets	11	4	97
Non-current liabilities - deferred tax liabilities	(373)	(34)	(3,307)

(Changes in presentation)

"Loss on valuation of inventories," which was included in "Other" under deferred tax assets in the previous fiscal year, has been separately presented from the fiscal year ended March 31, 2016 due to increased materiality.

In order to reflect this change in presentation of the consolidated

financial statements, a reclassification of the previous fiscal year has been made accordingly.

As a result, "Other" under deferred tax assets of ¥165 million as of March 31, 2015 has been reclassified as "Loss on valuation of inventories" of ¥24 million and "Other" of ¥141 million.

A reconciliation of the statutory tax rates to the Company's effective tax rates for the years ended March 31, 2016 and 2015 is summarized as follows:

	2016	2015
Japanese statutory tax rate	33.00%	35.00%
Permanent differences, such as entertainment expenses, etc.	1.35	1.69
Permanent differences, such as dividend income	(0.33)	(0.71)
Tax credit	(1.93)	(3.10)
Undistributed earnings of controlled foreign companies	0.50	1.32
Equity in loss of affiliates	0.28	2.04
Downward adjustment of deferred tax assets at end of year due to tax rate change	1.31	3.46
Income taxes for prior periods	6.35	—
Other	(0.64)	(3.45)
Effective tax rate	39.89%	36.25%

(Adjustment of deferred tax assets and liabilities pursuant to the change in the corporate tax rates)
The "Act for Partial Amendment of the Income Tax Act, etc." (Act No. 15 of 2016) and the "Act for Partial Amendment of the Local Tax Act, etc." (Act No. 13 of 2016) were enacted by the Japanese Diet on March 29, 2016. As a result, the effective statutory tax rate used to measure the Company's deferred tax assets and liabilities was changed from 32% to 31% for the temporary differences expected to be realized or settled in the year beginning April 1, 2016.

As a result of this change, deferred tax assets (net of deferred tax liabilities) and net defined benefit liability decreased by ¥2 million (U.S.\$14 thousand) and ¥0 million (U.S.\$3 thousand), respectively. In addition, income taxes-deferred and unrealized holding gain on other securities increased by ¥22 million (U.S.\$197 thousand) and ¥21 million (U.S.\$187 thousand), respectively. Also, unrealized revaluation gain on land (deferred tax liabilities) decreased by ¥8 million (U.S.\$75 thousand) and unrealized revaluation loss on land, net of taxes increased by same amount for the year ended March 31, 2016.

12 Employees' Retirement and Severance Benefits

The Company and its consolidated subsidiaries have either funded or unfunded defined benefit plans for payments of employees' retirement.

The Group pays a pension or lump sum based on length of service and salary in the defined benefit corporate pension plan.

In unfunded retirement benefit plans, the Company pays a lump sum based on length of service and salary as a retirement benefit.

Some consolidated subsidiaries adopt the simplified method which assumes retirement benefit obligation to be equal to the benefits payable if all eligible employees voluntarily terminated their employment at fiscal year end for the calculation of net defined benefit liability and retirement benefit expenses.

Total	100.0%	100.0%

(2) Calculation method of expected long-term rate of return on plan assets

The expected return on assets has been estimated based on the anticipated allocation to each asset class and the expected long-term returns on assets held in each category.

The assumptions used in the actuarial calculation

The main assumptions used in the actuarial calculation (presented as a weighted average) are as follows:

	2016	2015
Discount rate	0.8%	0.8%
Expected rate of return on plan assets	2.0%	2.0%

13 Net Assets

The Corporation Law of Japan (the "Law"), which superseded most of the provisions of the Commercial Code of Japan, went into effect on May 1, 2006. The Law provides that an amount equal to 10% of the amount to be disbursed as distributions of capital surplus (other than the capital reserve) and retained earnings (other than the legal reserve) be transferred to the capital reserve and the legal reserve, respectively, until the sum of the capital reserve and the legal reserve equals 25% of the capital stock account. Such distributions can be made at any time by resolution of the shareholders or by the Board of Directors if certain conditions are met.

Capital surplus and the legal reserve are not available for the distribution of dividends but may be used to reduce or eliminate a deficit or may be transferred to stated capital. At March 31, 2016, the legal reserve of the Company included in retained earnings amounted to ¥550 million (U.S.\$4,879 thousand).

The maximum amount which the Company can distribute as dividends is calculated based on the non-consolidated financial statements of the Company and in accordance with the Corporation Law of Japan.

14 Amounts per Share

Net assets per share as of March 31, 2016 and 2015 were ¥1,049.58 (U.S.\$9.31) and ¥1,001.84, respectively. Basic earnings per share for the years ended March 31, 2016 and 2015 was ¥42.01 (U.S.\$0.37) and

18 Segment Information

(1) Summary of Reporting Segments

The Group changed its reporting segments from two (Mothproofing and Hygiene-Related Products and Household Environment-Related Products) to a single segment (Daily necessities) from the fiscal year ended March 31, 2016.

As a result of having considered the process of making decisions about resource allocation and the nature of the Company's products and their markets, the Company judged that a single segment is the most rational and the best fit considering the actual circumstances.

Segment information for the years ended March 31, 2016 and 2015 is omitted as the Group operates as a single segment.

(2) Calculation method of sales, profits or losses, and other items by reportable segment

Information on the calculation method is omitted as the Group operates as a single segment.

(3) Information on the amounts of sales, income, and other items by reportable segments

Information on the amounts of sales and other items for the years ended March 31, 2016 and 2015 is omitted as the Group operates as a single segment.

The fair value of each stock option grant was estimated at the grant date using the Black-Scholes option pricing model.

Method of estimating exercised stock options

The Company estimated the number of exercised stock options based on the actual number of forfeitures because it is difficult to estimate the number of stock options which will be forfeited in the future.

Independent Auditor's Report

The Board of Directors
S.T.CORPORATION

We have audited the accompanying consolidated financial statements of S.T.CORPORATION and its consolidated subsidiaries, which comprise the consolidated balance sheet as at March 31, 2016, and the consolidated statements of income, comprehensive income, changes in net assets, and cash flows for the year then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. The purpose of an audit of the consolidated financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of S.T.CORPORATION and its consolidated subsidiaries as at March 31, 2016, and their consolidated financial performance and cash flows for the year then ended in conformity with accounting principles generally accepted in Japan.

Convenience Translation

We have reviewed the translation of these consolidated financial statements into U.S. dollars, presented for the convenience of readers, and, in our opinion, the accompanying consolidated financial statements have been properly translated on the basis described in Note 2.
