### Compilation Policy

**[Target Organizations]** The report on our company, or the S.T. Group (consolidated), if not mentioned. The “S.T. Group” means the entire S.T. Group, the “S.T. Group (in Japan)” means S.T. (non-consolidated) and group companies in Japan, and the “S.T. (non-consolidated)” means S.T. Corporation (non-consolidated).

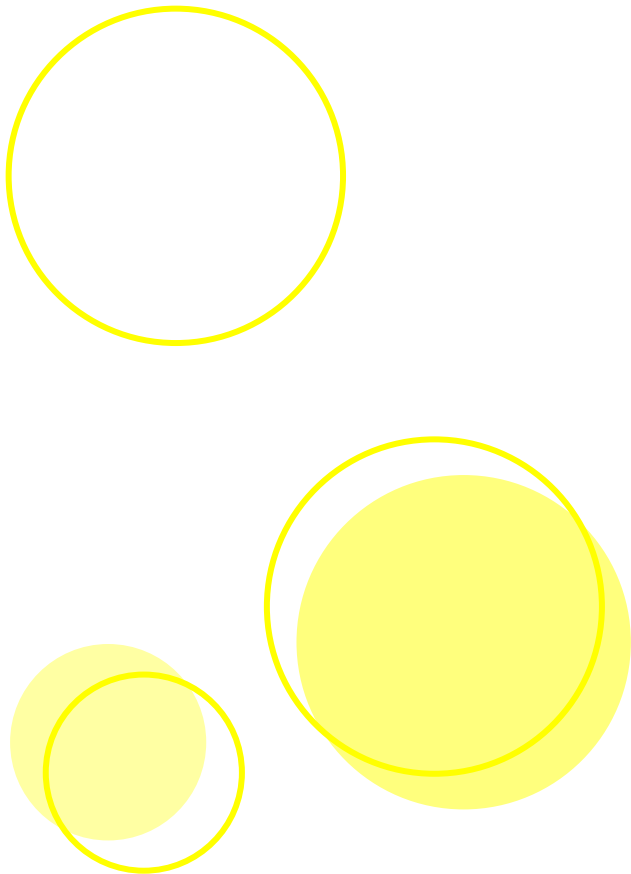

**[Target Period]** April 1, 2023 to March 31, 2024

Note: Fiscal years in this report are based on S.T. CORPORATION’s fiscal year ending March 31.

**[Forward-looking Statement]** This report contains forward-looking statements regarding S.T. CORPORATION’s future plans, strategies, and performance. Such forward-looking statements are based on information available as of the issuance of this report. Please note that the Company’s actual performance may differ greatly from forward-looking statements due to the economic situation, business environment, market demand, and foreign currency exchange rate fluctuations in the future.

**[Market Size, Market Shares, Seasonal Indices]** Market size, market shares, and seasonal indices are based on the data of INTAGE Inc.’s SRI+ (in value terms) for “deodorizers (for refrigerators)” during a 3-year period from 2021 to 2023, “mothproofing agents for food” during a 5-year period from 2019 to 2023, “disposable warmers, excluding those for the eye parts” during a 1-year period from April 2023 to March 2024, other items during a period from January to December 2023, “deodorizers and air fresheners (excluding those for clothes and anti-virus ones)” and “mothproofing agents (excluding those for dolls).”

## Overview by Geographic Region

### 《Breakdown of Sales by Region》 (FY2024)

Japan	93.6%
Overseas	6.4%

### 《Net Sales by Overseas Region》 (FY2024 Non-Consolidated)

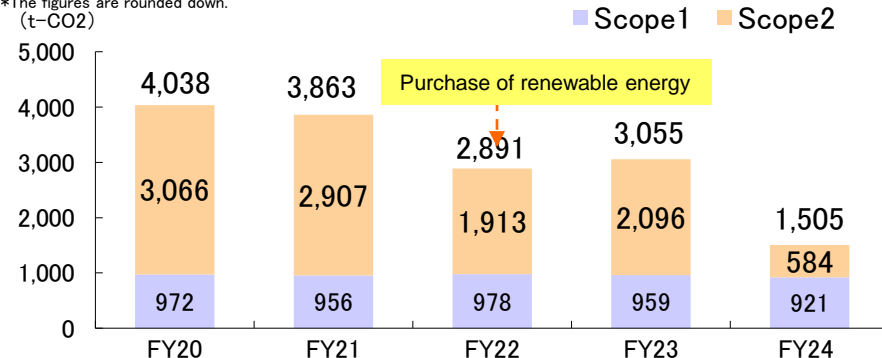

Asia	39.4%
U. S.	41.0%
Europe	8.6%
Other	11.0%

## Total CO<sub>2</sub> emissions (Scopes 1 and 2)

\*The CO<sub>2</sub> emissions from our domestic business establishments in Scopes 1 and 2 were estimated.

\*For the estimation of emissions in Scope 2 derived from purchased electric power, the consumption of power generated from renewable energy was multiplied by the adjusted emission factor for each kind of electric power and the consumption of other power was multiplied by the average emission factor in Japan and the sum of them was defined as CO<sub>2</sub> emissions until FY 3/2022. From FY 3/2023, the calculation using the adjusted emission factor for each kind of electric power was basically conducted, but the average emission factor in Japan was used for power generated from uncertain energy.

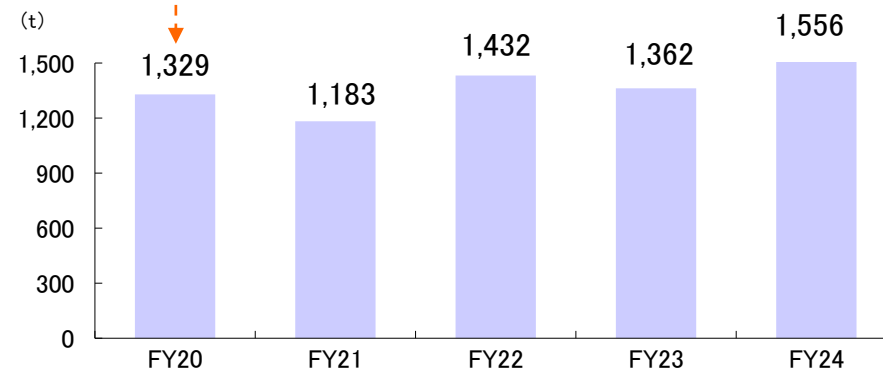

\*The figures are rounded down.

## The Four Effects of a Functional Tree Extract

- Reduce air pollution
- Promote an antioxidant function
- Eliminate odors
- Promote a forest bathing effect

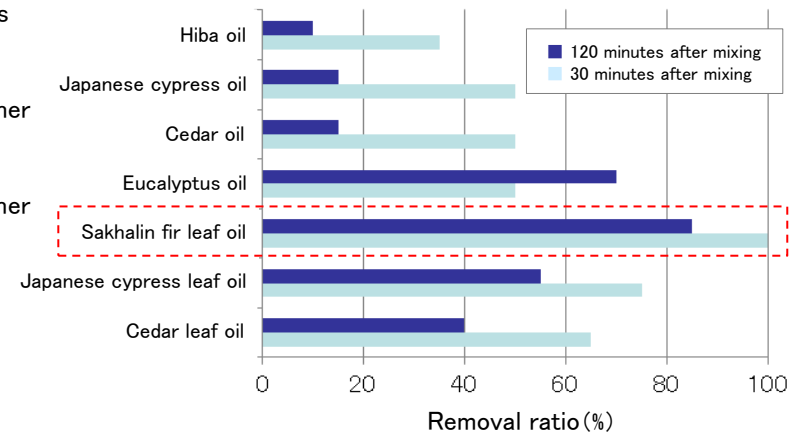

## Addressing Social and Environmental Issues Through Collaboration with Research Institutes and Local Communities

The S.T. CORPORATION Group's Japan Aroma Laboratory Co., Ltd. has been working in cooperation with the Forestry and Forest Products Research Institute to research and develop functional tree extracts. This initiative also marked the start of our technology brand called the Clear Forest.

This functional tree extract helps to purify the air of car exhaust and other emissions while reducing environmental air-borne pollutants such as nitrogen dioxide (NO<sub>2</sub>), which are recognized as a major cause of poor health including asthma. Moreover, the functional tree extract boasts other positive attributes including an antioxidant function and a forest bathing effect while facilitating the elimination of odors.

In the Clear Forest business, we aim to create a new market, cooperate with existing business sections, and so on, based on the new value of purifying such contaminated air.

# Systems for Overseeing and Supporting Business Administration

## Contents

---

1	Corporate Governance ( 1 )	2 1
2	Corporate Governance ( 2 )	2 2
3	Risk Management and Compliance	2 3

We consider that Corporate Governance is a Systems for Overseeing Administration for Sustainable Co-growth of Enterprises and Society.

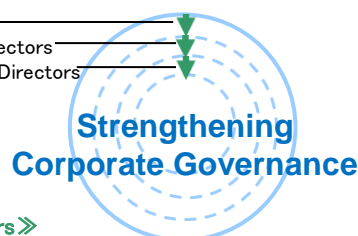

## 《Description of Corporate Governance》

We are aiming for the sustainable co-growth of enterprises and society. We think of corporate governance as a system that supervises our activities toward that goals. It is important to develop an environment for securing the transparency and fairness of management facilitating active decision making, and disclosing information properly. We recognize that shareholders, society and the environment entrust us with valuable managerial resources, and aim to realize the sustainable growth of society and the environment and create corporate value in the medium to long terms, in cooperation with stakeholders, and will fulfill our accountability.

## 《Development of Corporate Governance System》

In June 2004, in order to enhance oversight function of the Board of Directors and the quality of management and enrich management practices such as prompt decision-making and agile execution of operation, the Company was reorganized into a company with committees (currently company with three committees), which is more transparent and fair and in which outside directors account for the majority of board members. In June 2008, a female director was appointed for the first time, and in June 2024, female directors make up 22% of the board. In addition, we appoint outside directors with a wide array of knowledge, experience and skills such as management, marketing, accounting and legal affairs, etc. Since 2015, a board evaluation has been also conducted on annual basis to improve the effectiveness of the Board.

2004: Company with Committees  
2008: Appointment of Female Directors  
2015: Evaluation of the Board of Directors

## 《Remunerations of Directors and Executive Officers》

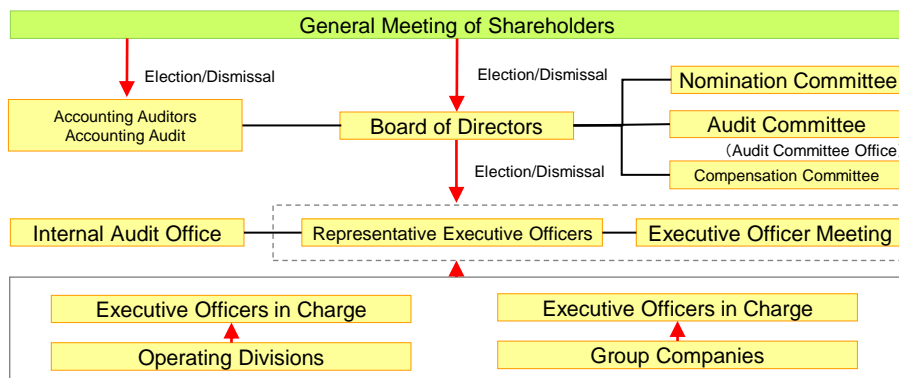

The Compensation Committee sets and determines the remuneration policy. The remuneration system was revised on April 30, 2015 at the Compensation Committee, so that executive will be able to align interests with shareholders as they seek sustainable mid-term to long-term growth of corporate value. Moving towards the goal of mutual interests with shareholders, points are given to executive officers according to business results of each term, and a share remuneration system is adopted where shares are provided upon their retirement as part of a medium to long-term incentive.

## 《Overview of Corporate Governance》

(Years Ended March, 31.2024)

Governance Type	Company with three committees

## Compliance

### 《Approach to Compliance》

Compliance is the foundation not only for corporate activities, but also for social activities, and without it, neither the comfortable and prosperous lives of our customers nor the survival of our company would be possible. Our corporate group not only adheres to laws and regulations, but also respects internal and external rules, ethics, and social norms. By practicing our corporate philosophy and code of conduct, we align our actions with societal demand and strive to meet our group's expectations. This approach is aimed at maintaining and enhancing the trust of all stakeholders and becoming a company loved by customers and societies around the world.

### 《Compliance System》

Our compliance management structure includes a Human Rights Compliance Committee, which manages human rights initiatives along with other compliance matters, and is established under the Sustainability Council that centrally manages all risks. Regarding roles and responsibilities, the committee is chaired by the executive officer in charge of the Corporate Value Enhancing Headquarters, which oversees human resources and legal affair, manages compliance-related risks. The members primarily consist of the heads of various departments within our corporate group. The Human Resources & General Affairs Department is in charge of the secretariat, which provides management and support, as well as awareness-raising and education for the entire group. Regarding reporting, we hold the Human Rights Compliance Committee meetings five times a year. The chair reports the activities and decisions of these meetings to the Sustainability Council, as well as updating the Audit Committee on the status of the committee's activities. The head of the Audit Office is responsible for the examination and reports to the President and CEO and the Audit Committee. The head of the Audit Office will make suggestions and recommendations to the executive officers in charge as necessary.

## Internal Control

With regard to the internal control of our corporate group, we will develop and continuously improve the systems necessary to ensure the reliability of financial reporting, to ensure the appropriateness and efficiency of organizational operations, to comply with laws and regulations related to corporate activities and internal rules, and to ensure the appropriateness of the operations of our entire corporate group.

## Risk Management

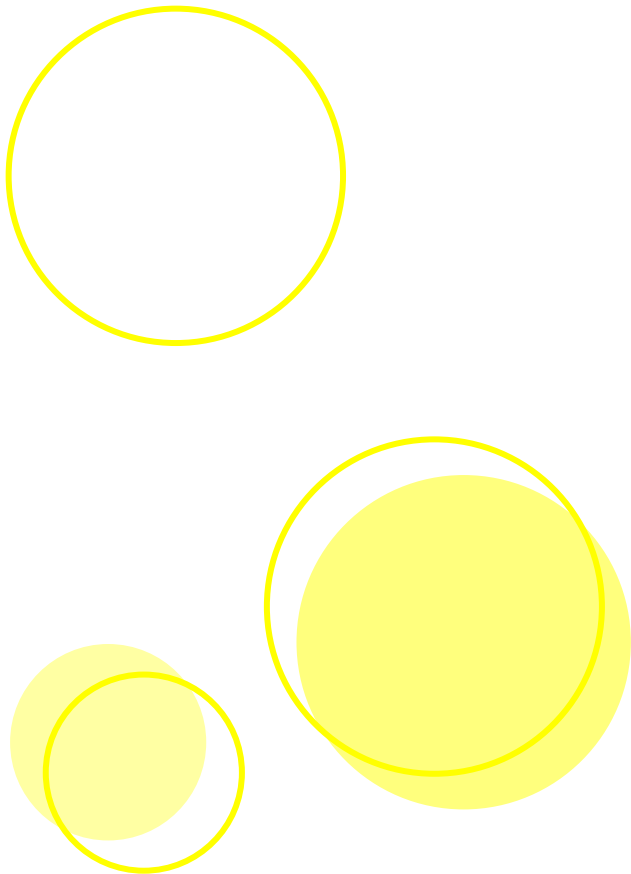

### 《Approach to Risk Management》

S.T. Group conducts risk management for preventing various management risks surrounding our company and minimizing possible damages. In recent years, the demand for sustainability has increased, further amplifying the business risks surrounding corporations. Our group addresses these risks by managing them appropriately, thus realizing sustainable growth and enhancing corporate value. We have established a risk management system to identify such risks that may affect management and to appropriately address and manage them.

### 《Risk Management System》

Our organizational structure for risk management places the Sustainability Council directly under the Board of Executive Officers. Under this council, we have established committees for managing risks related to different issues, including the Risk Management Committee, Environmental Committee, Human Rights Compliance Committee, Health Committee, and Product Liability (PL) Committee. The Sustainability Council, chaired by the President & CEO, oversees all risk management activities, with the President & CEO serving as the highest authority responsible for risk management. The members of the council are executives, with specific executives responding according to the nature of the risk. The secretariat of the Sustainability Council is managed by the Management Planning Department, which handles operations and support. Regarding reporting, the Sustainability Council meets quarterly to deliberate and decide on matters, and the chairperson reports these to the Board of Directors. The head of the Audit Office is responsible for the examination and reports to the President and CEO and the Audit Committee. The head of the Audit Office will make suggestions and recommendations to the executive officers in charge as necessary.

## Corporate Philosophy

誠 実

Sincerity

## Management Philosophy

1. To fulfill our mission of giving our service to society and earning society's trust, S.T. constantly works to improve its products, and to create unique products that our customers can trust absolutely.
2. To achieve the company's sustained prosperity, S.T. ensures its workplaces provide an environment where its employees can earnestly work with hope and pride.
3. Always valuing harmony and courtesy, S.T. strives to be the best company as regards winning the absolute trust of our customers, other concerned people and society at large.

## Corporate Slogan

“Refreshing the Air”

We want to refresh the air in your home and your life.  
We want to refresh the air in your store and your office.  
We want to refresh the air all over Japan.

As a first step, we're refreshing the air around us.  
With a refreshing approach to research and products.  
A refreshing attitude in our marketing and sales.  
And refreshingly new concepts in our advertising and publicity.

We're always offering our customers new proposals.  
Proposals that help by refreshing the air.

## Origin of the Company's Name

### 《Derivation of the Company Name》

The “ST” of S.T. Corporation derives from a formulation of the first tenet of our management philosophy: our mission of giving our **S**ervice to society and earning society's **T**rust, and of creating **S**uper **T**op products.

### 《The Baby Chick Logo》

Familiar to and enjoyed by many of our customers, our baby chick corporate logo symbolizes S.T. Corporation. The logo reflects our corporate stance of being healthy, refreshing, sincere, modest and always happily facing up to the next challenge.

### 《Innovative and Creative Products》

In 2006 S.T. took the opportunity of the 60th anniversary of its founding to adopt the new corporate slogan of “Refreshing the Air.” This slogan encapsulates our vision of refreshing the air throughout the world by providing innovative and creative products through all our business activities.
